# Oman Projects Market 2014 Report

## **A comprehensive forecast and assessment of the projects market in Oman**

Oman is one of the fastest growing projects markets in the Middle East. In the first quarter of the year the sultanate awarded \$3.5bn worth of contracts which is already more than 50 per cent of the value of deals awarded in the whole of 2013, indicating that 2014 should prove a very successful year for new projects.

The latest market intelligence report from researcher Insight, Oman Projects Market 2014 report, will provide an outlook for spending across all core sectors, including oil and gas, power and water, transport, industry and construction. It will profile key projects and clients and will include an overview of Oman's economy and politics.

The focus of this research report will particularly be on the key future projects such as BP's \$15bn Khazzan development, the \$10bn development of the Duqm refinery and petrochemicals complex, the expansion of Sohar refinery and other key projects such as the sultanate's roads and airports programme, its railway plans, and ambitious waste water programme.

# Oman Projects Market 2014 Report

## Key benefits and features

- Breakdown and analysis of the \$87bn worth of project opportunities in Oman
- Key data on current and future size of each sector
- Proprietary client and contractor rankings
- Details on upcoming projects and schedules
- Key opportunities, challenges and much more.

Although Oman has long been a stable projects market, the next few years could see the market grow substantially as it seeks to diversify its economy further and promote projects in more remote regions. Comprising more than 100 pages, this new Oman Projects Market report is essential reading for any company interested in accessing this growing and increasingly diverse market.
